Purveyors' Life Integrative Food Standards Application Form

The Key Ingredients for Life Integrative Food Standards are:

Chemical, hormone and pesticide-free, non-genetically modified organism whole foods which are produced as locally as possible by KIFL purveying partners using growing practices such as pasture grazing, grass fed diets, organic and biodynamic farming, to acquire nutrient dense foods through a community supported agricultural model.

I _____ (please print name or organization/business) am interested in growing or providing food and food-related products in accordance with the KIFL Integrative Food Standards to help support the Timber Frame Fresh Air Market, Key Ingredients Restaurant and the Mobile Farmers' Market.
